

Siemens & Google Cloud: Collaborating to deliver **AI-enabled factory automation**, at scale

SIEMENS

Google Cloud and Siemens, have partnered together to **optimise factory processes** and improve productivity on the shop floor

Deploying AI to the shop floor and integrating it into automation and the network is a complex task, **Google Cloud will make it easier to scale the solutions globally**

This will empower employees as they work on the plant floor, **automating mundane tasks**, whilst also improving the overall quality of the products

Combining AI/ML technology from Google Cloud with Siemens' solutions for Industrial Edge and industrial operation will be a **game changer** for the manufacturing industry

- Alex Lorenz, VP of Control at Factory Automation of Siemens
